MEDFUSION MAKES THE “FAST 50”

Triangle Business Journal selects Medfusion as one of Raleigh-Durham’s fastest private growing companies

Cary, NC – November 10, 2009 – [Medfusion](http://www.medfusion.net), the leader in patient-to-provider online communication solutions, was ranked the 33rd fastest private growing company of 2009 in the Research Triangle area.

Each year the Triangle Business Journal evaluates the fastest fifty private growing companies in the area and ranks them according to dollar growth, percentage rate of growth and profitability over a three-year period. They also take leadership, accomplishments and entrepreneurial spirit into consideration when making their selection.

Very pleased about the selection, Steve Malik, CEO of Medfusion commented, “I am very pleased about the recognition Medfusion has received, especially in a down economy. This could not have been accomplished without the efforts of hard-working and talented staff. As healthcare IT continues to expand, it’s important for us to maintain our leadership in providing patient communication solutions that are necessary to achieve better healthcare for our country. I’m quite proud of the Medfusion team for forging ahead relentlessly.”
