

Medfusion is pleased to announce an unprecedented opportunity to take advantage of the latest technology in healthcare – online patient consultations (eVisits) – at virtually no cost to you!

As you may have heard, some North Carolina payors have announced they are reimbursing for online patient consultations. To celebrate that news, Medfusion is offering our Virtual Office Visit (VOV) application to any North Carolina Medical Society member at virtually no cost.

*Have you thought about how VOVs could drive revenue and improve efficiency in your practice?*

## How do Virtual Office Visits work?

Virtual Office Visits are easy to set up, easy to conduct, and easy for patients to use. It's as simple as 1-2-3:

1. Patients log on to a secure portal to answer a series of interactive questions relating to their symptoms
2. Physicians review the secure online consultations anytime from anywhere, respond to the patient, and can even prescribe a medication
3. Your practice drives new revenue, increases efficiency, and offers ultimate convenience to patients

## What's the value of Virtual Office Visits?

Virtual Office Visits enable healthcare providers in North Carolina to:

- See more patients by treating non-emergent health issues securely via the internet ... in between in-office patient consultations, after business hours or on the weekend
- Turn undocumented, un-chargeable phone consultations into revenue-generating visits
- Consult with patients concerned with highly-contagious symptoms – such as swine flu – without the patients having to leave their homes

## So, what's the bottom line?

In recognition of this exciting news, Medfusion is offering this revenue-generating solution to North Carolina Medical Society physicians for an unprecedented fee of only \$28 per doctor per month! Typical reimbursement for a Virtual Office Visit is between \$25 and \$35 ... so you only need to conduct one online consultation per month for the solution to pay for itself! And for patients that are not eligible for reimbursement, that's okay too. Virtual Office Visits enable you to charge your patients a nominal fee per visit ... so either way online consultations are a great way to drive revenue for your practice.

Don't miss out on this opportunity to drive revenue, increase efficiency, and improve patient satisfaction for your practice ... this offer is good through September 30, 2009.
