

NEWS RELEASE

CAROLINA REGIONAL ORTHOPAEDICS, PA

Tarboro—Rocky Mount—Zebulon

For Immediate Release

Contact: J. Brad Fontenot, Practice Administrator

Telephone: 252.443.0400, ext. 231

Dr. Divya Patel joins Carolina Regional Orthopaedics (CRO). Dr. Patel focuses on comprehensive pain relief and physiatry and has extensive experience in evaluating and treating acute and chronic pain without surgery. She treats a wide range of injury and pain syndromes including sports and accident-related injuries, arthritis, tendonitis, back pain, sports or age-related injuries and myofascial pain.

Most recently hailing from Brown Orthopaedics in Fuquay-Varina and the Dunn area, Dr. Patel is Board Certified in physical medicine and rehabilitation and pain medicine. Dr. Patel has written several research papers, and presented nationally in the areas of eye infections and malignancy, and shoulder neuropathy.

Dr. Patel's training was furthered when she completed internship at Mercy Fitzgerald Hospital in Derby, and Physical medicine and rehabilitation internship at Temple University in Philadelphia. Dr. Patel completed her Pain Medicine fellowship at Neurology Headache and Pain Relief Center in Linwood, New Jersey.

She is dedicated to reducing her patients' pain and suffering, "so they may enjoy their vocational and social activities. We can do this by utilizing various pain relief treatment options including conservative management, minimally invasive techniques and procedures, and if required, surgery."

Carolina Regional Orthopaedics has a brand new state-of-the-art pain management center in its Tarboro office, which boasts a versatile C-Arm Imager, utilized in the diagnosis and treatment of injuries and painful conditions. The Tarboro office of Carolina Regional Orthopaedics is located on N. Main Street, next to Thorne Drugs and across from Heritage Hospital.

To make an appointment with Dr. Patel or for further information, please call the Tarboro office at 252.823.7212 or the Rocky Mount office at 252.443.0400. Or, visit Carolina Regional Orthopaedics online at www.crortho.com for more information.
