

ATTENTION

EXPECTING MOTHERS

We are looking for expecting mothers that will, on Friday, July 30, 2010, be between 11 weeks and 13 and a half weeks of pregnancy.

We will be performing a state of the art ultrasound examination (abdominal scan) to detect genetic abnormalities in the first trimester.

We will be performing these ultrasound scans at an educational course that will be held on:

Friday, July 30th, 2010

12:00-4:00pm

Capital Area OB

4414 Lake Boone Trail

Raleigh, North Carolina

If you qualify to participate, you will be reimbursed \$25 for your participation in this clinical training.

Please speak with the front desk to schedule, or for further information.
