

October 17, 2006

Boylan Medical Associates is pleased to announce the opening of a second office, located in North Raleigh, starting December 4th, 2006. We are excited to offer the added convenience of a new location to our existing patients and to meet the growing demand for primary care providers in the North Raleigh area.

Two of Boylan's established physician's, Dr. Randall Curnow and Dr. Charles Wehbie will relocate their practices to the new North Raleigh office. In addition, three new providers will work in the new office; Dr. Alka Sachdeva and physician assistants Dan Meyring, PA-C, and Melissa Cuneo, PA-C. Drs. Curnow, Wehbie, and Sachdeva will continue to see their existing patients at the new North Raleigh office. All five providers at the new location will also be accepting new patients. The map below will display the new office location in relation to our Browning Place office.

Boylan will continue to run its Browning Place office, which has been home for 27 years. Drs. Mitchell Hardison, Robert Smithson, Mary Forbes, Todd Helton; along with Jan Kimball, NP will remain at the Browning Place office. They will be joined by a new physician's assistant, Kim Bastide, PA-C who will be joining the practice this fall. We welcome patients to remain with their current provider; regardless of your provider's location. However, if you find one office more convenient than the other, we would be happy to assist you in choosing another provider within Boylan.

Boylan Medical Associates wishes to thank all of our patients for their continued support. Our new north Raleigh office is just one of many practice advances we will be introducing over the next year. We want to continue to meet your primary care needs by offering the finest providers, the most responsive service, and convenient locations. It is our honor to serve you; your well-being is our business. For more than 40 years, Boylan has provided care to the Triangle area and we look forward to providing our patients with the highest level of healthcare for years to come.

Please do not hesitate to call us if you have any questions or concerns regarding this transition. Our ultimate goal is our patient satisfaction.

Sincerely,

Randall T. Curnow, Jr., MD, MBA
