

Insulin Pump and Continuous Glucose Monitoring

INFORMATION SESSION

Want to know your glucose levels 24 hours a day?

Tired of the ups and downs of insulin injections?

Insulin pump therapy and continuous glucose monitoring (CGM) are proven effective for helping reduce dangerous lows and normalize glucose levels.

When: Saturday December 19, 2009
Time: 11:00 am—1:00 pm
Place: Mid Hudson Medical Group
600 Westage Business Center Drive
Fishkill, NY 12524

An Insulin pump gives you more precise control over insulin delivery so you can:

- Adjust insulin delivery—instead of relying on snacks—so you can control blood Glucose levels and your weight, and feel *better* now
- Benefit from more flexibility surrounding food, meal schedules and exercise

Continuous Glucose Monitoring displays REAL-TIME glucose readings, trend graphs, directional arrows and alarms—all day, all night—so you can:

- Take action right away* to gain greater control of your glucose levels
- Protect yourself from dangerous highs and lows

What you can expect from the program:

- An introduction to insulin pump therapy and CGM , including hands-on, basic button pushing
- Information regarding insurance coverage for insulin pump therapy
