

Welcome to Glenwood Medical Associates' interactive website. By creating an account, you can take advantage of our interactive features, which include:

- **Request a prescription on-line**
 - This allows you to renew a prescription as a patient, provided you are an established patient and we have already placed you on the medication.

- **Request an appointment**
 - This feature directs communication to our Reception Services Department, where we can set up and confirm an appointment for you on-line.

- **Complete registration forms**
 - For new patients entering the practice, this provides a seamless and efficient way of registering as a patient before you come in, to save time and create more efficiency.

- **Pay your bill online**
 - Our secure online banking system allows us to receive credit card payments through the convenience of the internet.

You will be asked to create a User ID and password, as well as provide some information to validate who you are.

We do this for your security and protection. This form is processed securely and the information is encrypted.

Becoming an online patient at our Virtual Office does not establish a doctor/patient relationship.
