

SLEEP DISORDERS CENTER OF VIRGINIA

Say Goodnight Virginia

You should receive a telephone call with the results of your sleep study in approximately ten working days from: _____

- Richard A. Parisi, M.D.
- Martin F. Betts, M.D.
- Edmund W. Cornman, M.D.
- Sarah Shahab, M.D.
- Michael B. Miller, M.D.
- Suleman H. Iqbal, M.D.

The following mask(s) was/were used during your sleep study:

* If you are being evaluated for sleep apnea and are having any medical or dental procedure involving sedation (whether you are “put to sleep” or simply given medication to relax), it is important to let the doctor performing the procedure know that you are being evaluated for sleep apnea.

* If, after 24 hours, you experience redness or itching where the electrodes were attached to your skin, please call your practitioner at the Sleep Center (checked above) or your primary care doctor.

Thank You,

SLEEP DISORDERS CENTER OF VIRGINIA
