John Fraker, MD

Learn About Common Ear, Nose and Throat Problems and Treatments In Children

Thursday, February 9, 6:30 pm

Children experience many of the same ear, nose and throat (ENT) problems as adults. However, children's symptoms may be different from adults and adult treatment methods may not be suitable for children. Join Dr. John Fraker as he discusses common pediatric ENT issues and the treatment options available.

This seminar will be held in the Garden Lobby Classroom.
