

What To Bring To Your First Visit

Please bring referral information, recent x-rays (and reports) of affected body parts, insurance card, and list of current medications.

Health Care Plans Accepted

We are providers for most managed care plans as well as Medicare.

Pre-surgical preparation

Nothing to eat or drink 8 hours prior to surgery except approved medications with a sip of water. Wear loose fitting clothes. Arrange a ride home if you are an outpatient. Fill your pain medication prescription before surgery. Specific instructions will be provided by the preoperative assessment nurse or anesthesiologist at the hospital two days before the operation.

Postoperative Information

Read your preoperative sheet of FAQ's (frequently asked questions) and keep it handy for post-operative.

Ice and elevate the operated extremity. Plan to rest for a few days after surgery to minimize bleeding and swelling. Remember to call to renew narcotic prescriptions during office hours when we have access to your chart. We do not refill narcotic prescriptions on nights and weekends.

Emergency/After Hours Procedures

Please call 911 if life threatening. Otherwise please call our office at (813) 877-6748 to have the doctor on call paged.

Additional Information

Our facility has high quality X-ray equipment.
