## DO YOU KNOW YOUR INSURANCE BENEFITS FOR YOUR ANNUAL EXAM???

It is important that you read carefully the information below about insurance billing for your annual exam. Please ask us if you have questions and call your insurance company for clarification, if necessary. Answering these questions will help us be sure that your insurance billing is done correctly and help you to utilize your insurance benefits properly.

PLEASE CHECK THE APPROPRIATE BOXES FOR TODAY'S ANNUAL EXAM:

Check one of the boxes below:

- I have preventive benefits with my health insurance policy.
- I do not have preventive benefits with my health insurance policy.

If you have preventive health care benefits, check one of the boxes below:

- My annual visit today is for a routine exam and I am not having any problems. If problems are discovered during today's preventive visit, I understand that office visits for diagnosis, testing, treatment or follow up of illnesses are not covered by preventive benefits. These services are usually covered as any other illness, according to your agreement with your insurance company. I understand that there may be charges, such as a co-pay, co-insurance, or deductible that are my responsibility.
- I do have health problems I need to address during my annual exam today. I understand that this visit is not solely for preventive care and billing of my insurance company will include both preventive and illness diagnoses. I understand that there may be charges, such as a co-pay, co-insurance, or deductible, that are my responsibility.

IF YOU DO NOT KNOW ABOUT YOUR PREVENTIVE BENEFITS, CALL THE NUMBER OF  
THE BACK OF YOUR INSURANCE CARD BEFORE YOU ARE SEEN.
