

Aesthetic Surgery Center

Dr. Simon Chin is a double Board certified plastic surgeon who specializes in cosmetic surgery as well as hand surgery. He has been honored by numerous societies and publications including "Best Doctors in America" and "Top Docs" by

Westchester Magazine as well as consistently earning amongst the top patient satisfaction scores amongst the physicians at MKMG. He has trained extensively at the nation's most prestigious institutions to learn the latest minimally invasive techniques. He is a Magna Cum Laude graduate of Harvard College in biochemistry and then attended the Vanderbilt University School of Medicine in which he placed honors in every clinical rotation.

Dr. Chin completed Yale University's Plastic Surgery residency in which he studied all aspects of cosmetic surgery and injectable agents. After a hand fellowship at the University of Washington, Dr. Chin further honed his aesthetic surgery skills by completing a year-long fellowship at NYU / Manhattan Eye Ear & Throat Hospital in which he studied purely cosmetic surgery for a full year. Most experts consider this to be the preeminent cosmetic surgery fellowship in the world.

There, he formally trained under some of the pre-eminent surgical authorities in cosmetic surgery including Drs. Sherrell Aston, Daniel Baker, Alan Matarasso, Gerald Pitman, and Nicolas Tabbal. Dr. Chin has authored 15 peer reviewed original journal publications and 3 book chapters which include studies on abdominoplasty and other cosmetic surgery. In

Manhattan, Dr. Chin performed cosmetic surgery exclusively on a daily basis.

Dr. Chin has trained in Smartlipo techniques since 2008 and is now offering his expertise to Westchester, Putnam and Dutchess counties. He is well-versed in the latest minimally invasive techniques such as endoscopic browlift, short scar facelift, atraumatic fat grafting, short scar breast lift / reduction, and hand rejuvenation. He has offices in Westchester, and Putnam counties.

His expertise and services include:

- Abdominoplasty (standard tummy tuck and high lateral tension)
- Blepharoplasty (eyelid lift)
- Brachioplasty (arm lift)
- Breast augmentation
- Breast lift (short-scar)
- Breast reduction (short-scar)
