**Livingston HealthCare's Hospice Care Offering
Bereavement Support Group**

Livingston Healthcare's Hospice Care will be offering a six-week bereavement support group for hospice families. The group will meet on six consecutive Wednesdays at 6:00 pm at 601 Robin Lane beginning Wednesday, May 11, 2011.

"The loss of a loved one can be very difficult," says Julie Rost, Hospice Care Manager at Livingston HealthCare. "As part of our hospice service, we offer bereavement counseling and support both prior to and for up to 12 months after a family's loved one has passed away."

To register, or for more information, contact Connie Olsen at 406-823-6430. The group is limited to the first ten people who respond. For more information on Livingston HealthCare's Hospice Care services, visit www.livingstonhealthcare.org.
