Memorial Hospital gets state designation

By Enterprise Staff

Livingston Memorial Hospital has received Community Trauma Hospital designation from Montana's State Trauma Care Committee.

The designation guarantees immediate availability of surgeons, anesthesia, physician specialists, trauma nurse and resuscitation life support equipment 24

hours a day to care for severely injured patients.

The designation also includes a commitment to staff education and training on advanced trauma skills.

All emergency room physicians and hospital registered nurses are required to be trained in areas such as advanced cardiac life support, pediatric advanced life support, and advanced trauma life support.
