

Home Care

Quality healthcare in the comfort of your home

The Healing Power of Home

When a patient can stay in the comfort and security of their own home during an illness, disability or recuperation, they are often in the optimum environment for healing. Working with patients and their families, the Home Care team supports patients as they regain their independence.

The principles of home care are simple:

Quality care.

We provide individualized, personal care under the direction of the patient's personal physician. Our staff are professionals who are licensed and/or certified.

Quality caring

Supporting and working with the patient and his/her family, we provide services in the comfort of the patient's own environment.

Quality coverage.

Home Care nurses are available 24 hours a day, 7 days a week.

Livingston HealthCare includes:

- **A** Livingston Memorial Hospital
- **A** Home Oxygen
- **B** Orthopedic and Rehabilitation Institute
- **C** Park Clinic (River Drive)
- **D** Park Clinic (West Crawford)
- **E** Home Care and Hospice Care
- Sleep Center, 1429 West Montana

Since 1955, Livingston HealthCare has provided premier-quality healthcare to the residents of Park County and surrounding communities. We keep our community healthy with a broad scope of services provided by well-trained and highly-skilled professionals. At Livingston HealthCare, we believe that **the way we care** is as important as the healthcare services we provide. That's why we like to say that we're more than just healthcare. We're really **the heart of community care.**

What is Home Care?

Home Care brings the benefits of Livingston HealthCare's skills and services to you in the familiar environment of your home. Home Care professionals work as a team to deliver a complete range of services to homebound patients. Working with your physician, the team includes registered nurses, licensed practical nurses, home health aides, physical, occupational and speech therapists, and medical social workers. Home Care often provides an important link in recuperation from your hospitalization to your independence at home.

Home Care Team Members

- Physician
- Registered Nurses
- Licensed Practical Nurses
- Home Health Care Aides
- Physical, Occupational, and Speech Therapists
- Medical Social Workers

Home Care brings compassionate, quality healthcare into the familiar environment of your home.

Home Care Services

The Home Care team evaluates each patient and creates a plan of care. The plan of care may include services such as:

- Skilled nursing care
- Infusion (IV) therapy
- Post-surgery and wound care
- Rehabilitation services (physical, occupational and speech therapy)
- Diabetes care
- Respiratory therapy
- Medical social work
- Personal care assistance

Patient Criteria

Home Care is available for Park County residents with a physician order. Patient must require the services of a licensed clinical professional (RN, PT, OT, ST, MSW). (For Medicare, patient must be homebound.)

Patient Billing

Most health insurance companies, including Medicare, cover home care services. At your request, our business office would be happy to verify your insurance coverage for you.
