

LHC financial services office in new location

By Enterprise Staff

If you're looking to talk in person with someone from Livingston HealthCare about your medical bills, take note that the group's office of Patient Financial Services has a new location.

Last week the Patient Financial Services staff moved into the Western Drug Plaza off West Park Street. The office is located on the south side of the plaza, across from the Shear Image salon.

Patient Financial Services handles LHC matters such as questions about billing and setting up payment arrange-

ments.

Previously, the more than 20 staff members were scattered throughout offices spread across the LHC campus, LHC Community Development Director Sandi Marlowe said.

The new location offers a central office for staff members, which will "allow them to work more efficiently and effectively together," Marlowe said.

Western Drug Plaza also offers plenty of parking and easy access for people visiting the new office, she said.
