**LIVINGSTON HEALTHCARE EARNS QUALITY  
RECOGNITION THIRD YEAR IN A ROW**

Livingston HealthCare has earned Quality Respiratory Care Recognition (QRCR) under a national program aimed at helping patients and families make informed decisions about the quality of the respiratory care services available in hospitals.

Only 15% of hospitals in the United States received this award. This is the third year in a row that Livingston HealthCare has been granted this award, which recognizes the facility for adhering to a strict set of criteria governing respiratory care services. These requirements include:

- All respiratory therapists employed by the hospital to deliver bedside respiratory care services are registered respiratory therapists.
- Respiratory therapists are available 24 hours a day.
- A physician has been designated as medical director of respiratory care services.

“Hospitals that meet the QRCR requirements provide a level of respiratory care consistent with national standards and guidelines, and should be commended for their commitment to quality care,” states a release from the AARC.

For more information about the cardiopulmonary and respiratory care services offered at Livingston HealthCare, visit [www.livingstonhealthcare.org](http://www.livingstonhealthcare.org)
