Wireless Internet Access

To access this service you must have your own portable computer or device.

Following are the Livingston HealthCare Guest Wireless Network configuration requirements and reference information:

- Wireless signal = 802.11b/g
- You must have up-to-date virus protection on your wireless device.
- Encryption is required.
- Printers are not available for wireless users.

place password label here

If you have problems accessing the Internet over the Livingston HealthCare Guest Wireless Network, hospital staff cannot assist in making changes to your device or network settings or perform any troubleshooting on your device. You will need to refer to your owners' manual or seek other support services for assistance.

Please note: Like any other public wireless network, the Livingston HealthCare Guest Wireless Network is not secure. Be cautious about transmitting personal information while using any public wireless network. Livingston HealthCare is not responsible for any personal information (e.g. credit card) that is compromised. Livingston HealthCare is not responsible for any damage caused to your hardware or software due to electric surges, security issues or consequences caused by viruses or hacking. Using the Livingston HealthCare Guest Wireless Network in a responsible manner and monitoring the access of minors is the sole responsibility of the user.
