**LIVINGSTON HEALTHCARE ADDS PHYSICAL THERAPY SERVICES
IN WILSALL**

Livingston HealthCare announced today that outpatient physical therapy services are now available at the Shields Valley Health Center. Appointments at the new outreach clinic will be offered every Tuesday and Thursday afternoon beginning at 1:00 pm.

Since 2003, Livingston HealthCare Rehabilitation Services has been providing adult and pediatric physical, occupational, and speech therapy to the residents of Park County. These services help patients restore or improve their quality of life when recovering from an injury or illness or coping with a chronic condition. Our experienced team of therapists provide customized treatment programs to help each patient achieve their personal goals.

“Each year, we have nearly 15,000 visits to Livingston HealthCare Rehabilitation Services,” explained Sam Pleshar, CEO, Livingston HealthCare. “We provide outreach clinics like this one, and the one in Gardiner, to better serve our patients throughout Park County.”

Patients who would like to make a physical therapy appointment at the Shields Valley Health Center, can call 406-222-7231. During the scheduling process, patients should request an appointment in Wilsall.
