Dear Valued ECA Patient,

The physicians of Eastside Cardiology Associates are very pleased and excited to announce our formal affiliation with Evergreen Healthcare. While we have worked closely with Evergreen over the years we have taken the next step and officially become part of the Evergreen “family”.

Our vision is to continue the high quality of care, technological advances, access and response times that you have come to expect. To accomplish this we sought a partnership that could help us continue to provide more comprehensive and more fully integrated cardiovascular services. Evergreen Healthcare is that partner!

You will hear more from us as we become part of the Evergreen “family.” We feel that these changes will bring great benefit to you, our patients, and to Cardiology services in our community. Please rest assured that you will receive exceptional care during our transition...and always!

Warm regards,

Eastside Cardiology Physicians
