

**** RETURN TO RECEPTIONIST ****

**DELAWARE VALLEY OB-GYN AND INFERTILITY
GROUP, PC**

HIPPA

HIPAA is a new federal government regulation, which contains rules about how we can use your medical information with, and without, your prior permission. It also gives patients new rights with respect to the privacy of their medical information. We are obligated by law to hand you the attached Notice of Privacy Practices, which explains our duties and your rights, and to get a written acknowledgement from you that you have received the form. **It is therefore necessary for you to sign this form below and we ask your cooperation in this regard.**

To learn more about HIPAA, you may visit the United States Department of Health and Human Services' web site at:

www.aspe.hhs.gov/admnsimp/Index.htm.

- I received a copy of Delaware Valley OB-GYN and Infertility Group, P.C.'s Notice of Privacy Practices.
