

Brian E. Novick, M.D.

Irene C Paek, M.D.

WELCOME TO OUR OFFICE

Brian E. Novick, M.D. is Medical Director of Allergy Testing- A Division of ProHEALTH Care Associates. He completed his training at the Albert Einstein College of Medicine, where he now serves as an Assistant Clinical Professor. Irene C. Paek, M.D. completed her Allergy and Immunology fellowship at the Long Island College Medical Center. As Board certified Allergists/Immunologists, they specialize in treating children and adults with a wide range of disorders, including asthma, food allergies, sinus problems, recurrent infections, eczema and hives.

WHAT WE DO

When you are evaluated at our office, you receive a comprehensive consultation, exam, and, often, complete skin testing. People mistakenly think that going to an allergist automatically means you need allergy shots. This is far from the case. Allergists take a very careful history to try to figure out the cause of your symptoms. We are always in contact with your doctor regarding your progress and ongoing treatment.

OFFICE HOURS

Our offices are open Monday through Thursday starting at 9:00 AM and as late as 8:00 PM. On Fridays we are open from 9:00 AM to 4:00 PM. Patients are seen by appointment during regular office hours. Please see our website for details. If you cannot keep your appointment, please call us by the previous day so we can help you reschedule it, and offer the appointment to another patient.

If you have any questions, please do not hesitate to call us. We are committed to providing patients and their physicians the highest quality of care in evaluating, testing, and treating allergic disorders. We look forward to seeing you.
