### Big News

#### *LOC is now offering services in Southern Indiana*

We are excited to announce that our physicians are now performing surgeries out of Physicians' Medical Center in Southern Indiana.

Physicians' Medical Center (PMC) is a physician owned, state of the art, boutique specialty hospital. Because the hospital is physician owned, the facility is able to control costs and provide more personalized patient care.

In an effort to offer an option to patients who may find an Indiana location more convenient, LOC is in the midst of plans to open a clinic office space as well.
