

## TELEHEALTH

Orangeburg Medical Group is following the CDC and Stanislaus County Health Service Agencies recommendations. With the current Shelter in Place order we are providing telehealth visits for our patients so that you can see your provider while staying safe at home. This is similar to a face to face visit but through virtual video. We can schedule most appointments that do not require a hands on examination. All you will need is a smartphone, computer, or tablet. To schedule a telehealth visit with your provider please contact our office at (209) 523-1884 and inform the representative that you are interested in this type of appointment.
